## DETAILED ACTION

Claims 1-17 are pending in the application.

### *Election/Restrictions*

Applicant's election with traverse of Group I  
(Claims 1-5), and the species wherein

wherein X = O

R<sup>1</sup> = 2-fluoro-4-ethylphenyl;

R<sup>2</sup>, R<sup>3</sup> = -(CH<sub>2</sub>)<sub>4</sub>; and

R<sup>4</sup> = 3,5-dimethylphenyl.

(which is Compound RG-121515 found on page 15 of the instant specification), in the reply filed on November 29, 2006 was acknowledged in the previous Office Action. The requirement was deemed proper and therefore made FINAL in the previous Office Action.

Art Unit: 1626

Subject matter not embraced by elected Group I and Claims 6-17 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention(s), there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on November 29, 2006.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Hussein et al. {Heterocycles, (1994), 38(5), pages 981-990}.

Hussein et al. disclose the compound of Entry 3d on page 982, which is embraced by the instant claimed invention. Therefore, Hussein et al. anticipate the instant claimed invention.

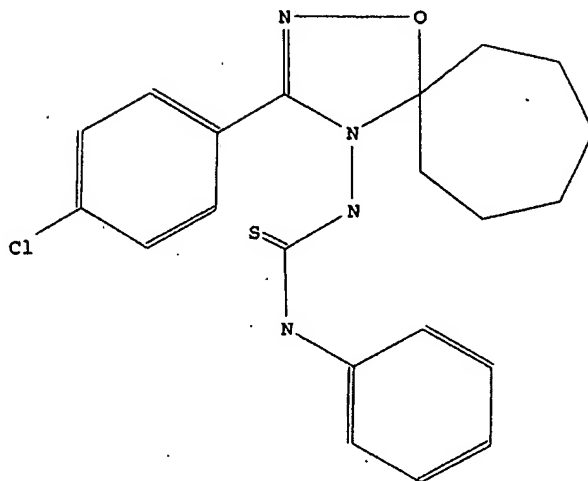

#### ***Response to Arguments***

Applicant's arguments filed March 29, 2007 have been fully considered but they are not persuasive. Applicant argues that Entry 3d on page 982 in Hussein et al. does not anticipate the instant claimed invention because of the proviso in claim 1 which states "when R<sup>4</sup> is 3-chlorophenyl, then R<sup>1</sup> is not phenylamino". In response, none of the four provisos at the end of instant claim 1 circumvent the compound of Entry 3d of Hussein et al. The structural depiction

Art Unit: 1626

of the compound of Entry 3d in Hussein et al. is as follows.

**Entry 3d**

Note that the substituent at the 3-position of the 1,2,4-oxadiazole ring, which corresponds to the position of the instant R4 variable in the formula of instant claim 1, is a **p**-chlorophenyl (or **4**-chlorophenyl) and not a **3**-chlorophenyl as stated in the specific proviso argued by Applicant. Therefore, the rejection is deemed proper and is maintained.

Art Unit: 1626

***Allowable Subject Matter***

The elected species of Compound RG-121515, found on page 15 of the instant specification, is allowable over the art of record.

Claims 4 and 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first

Art Unit: 1626

reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

This application contains subject matter not embraced by elected Group I and claims 6-17 drawn to inventions nonelected with traverse in the reply filed November 29, 2006. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.
